

LAGOON free-standing stainless steel circular fountain washbasin with timed push-button faucets for preschool

References: **LC-06-EM / LC-08-EM**

Description

Free-standing circular stainless steel communal washbasin at preschool height with 6 or 8 integrated timed faucets, for cold or pre-mixed water.

Space-saving: optimizes available space, allowing smooth circulation around the washbasin.

Robust for intensive use, it combines hygiene, safety, and user comfort.

The circular, pressed parabolic-shaped basin ensures optimized water flow and prevents splashing.

Easy installation with a single connection for water supply and drainage.

Optional soap dispensers available.

Ref. LC-06-S-EM

Features

Circular communal washbasin made from AISI 304 stainless steel, polished/satin finish, basin thickness 2 mm (leg 2.5 mm).

Stainless steel leg with inspection panel for connecting water supply and drainage. Zinc-coated steel anchor bolts.

Three seals: with the floor, between the leg, base, and basin.

Timed soft push-button faucets and pre-assembled pipes with tested sealing. Faucet maintenance is made easier with front mounting on stainless steel F1/2" fittings. Flow time ~7 seconds.

Pre-set flow rate at 3 LPM at 3 bars, adjustable from 1.4 to 6 LPM.

Vandal-proof anti-limescale aerator.

Optional soap dispensers with 800 ml cartridges.

Water supply via M1/2" threaded shut-off valve.

Drainage with 2" (Ø 50 mm) drain trap.

Dimensions: Ø 995 x H900 mm (basin height 500 mm).
