SUPRATECH

Behind-mirror automatic soap dispenser

References: **RES-48 / RES-48P**

Description

Automatic liquid soap dispenser with infrared sensor, for behind-mirror installation, above the washbasin.

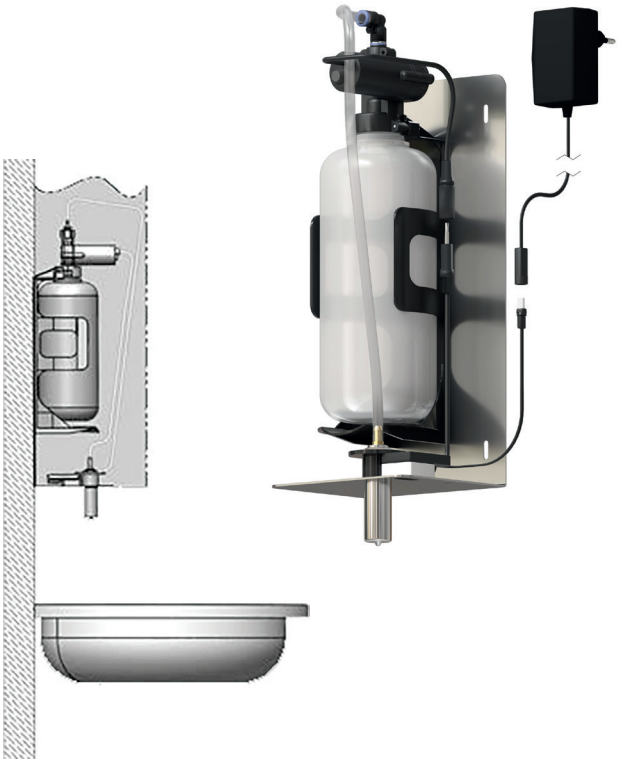

Touch-free, protects against cross contamination.

The robust construction allows for installation in heavy-traffic areas.

Drastic soap consumption reduction: regular and precise dispensing, drip-free automatic stop.

Easy to install and fill.

Perfect combination with the matching behind-mirror faucet for hygiene, user comfort, and brand image of your sanitary spaces.

Features

Activated by infrared sensor.

Minimum distance of 30 cm under the sensor, avoiding all reflective surfaces.

Powered by 230/12V transformer or 6 x LR20 batteries (not supplied).

Chrome plated L50mm ø20mm brass spout with stainless steel support bracket.

Behind-mirror mounting.

1L refillable tank (optional 6L tank).

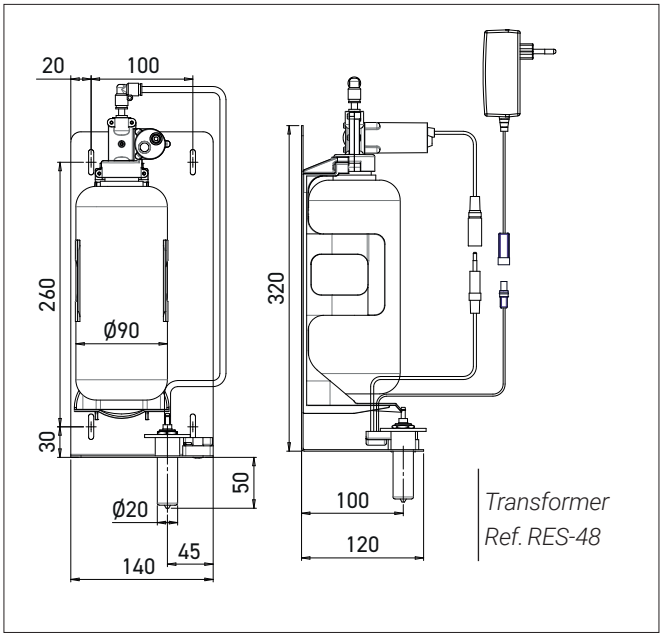

Operates via peristaltic pump for use with any type of liquid soap, detergent, lotion or antibacterial gel.

Viscosity 100 - 3800 cPs. pH 6.5 - 8.5.

Optional RES-38 settings remote control for soap dosage, priming after refill, temporary stop and reset (return to factory settings).

CE. 2 year warranty.
