

## Recessed stainless steel electric hand dryer

Reference: **SMH-91**

### Description

Recessed automatic stainless steel hand dryer, with the main advantage of freeing up space in restrooms. It also reduces the risk of damage or theft and facilitates maintenance.

It is equipped with a brushless motor, which operates without the need to replace carbon brushes.

It blows warm air with minimal noise, which is appreciated in spaces used by children and locations requiring a quiet environment.

Blue light beam active during operation to guide hand placement.

**Vandal-proof.**

### Features

Infrared sensor operation.

Detection range: 180 mm  $\pm$  20 mm, adjustable.

Power supply: 230 AC, 50/60 Hz, 8.8 A, 2.02 kW.

Standby power consumption: 1.5 W.

Safety stop after 60 seconds of uninterrupted use.

Brushed AISI 304 stainless steel front panel, 2 mm thickness.

Secured by 4 vandal-proof screws.

Rated power 2020 W.

100W brushless motor.

Heating element 1920 W.

Drying time: less than 30 to 35 seconds.

Quiet noise level: 63  $\pm$  3 dB at 1m.

Air speed: 14.5 m/s.

Triple safety protection:

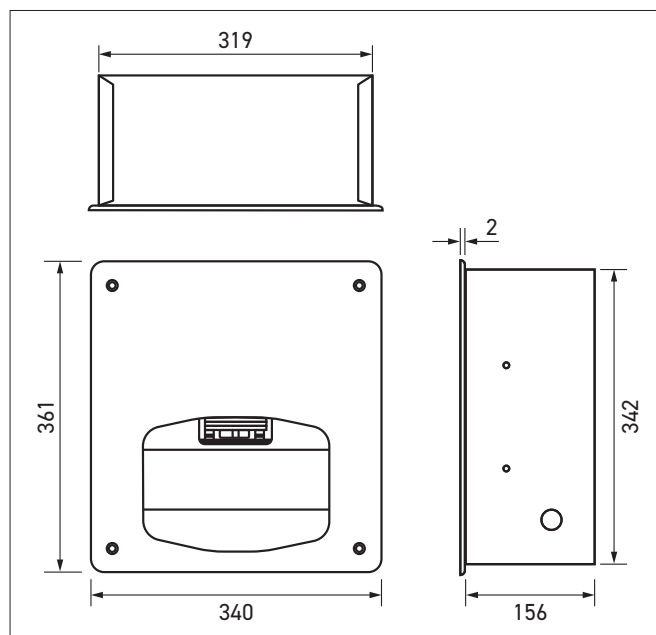

- Motor with safety thermostat at 105° C
- Heating element with safety thermostat at 87° C.
- Heating element cut-off via thermal fuse at 142° C.

Dimensions: **W340 x D156 x H361mm.**

Recessed cut-out dimensions: **W323 x D158 x H346 mm.**

Net weight: **9.2 kg.**

3-year warranty. CE. Class 1. IP21.

### Certifications:

**WEEE RoHS**

### Reference

- **SMH-91** brushed stainless steel
