# Wall-mounted foldable changing table

Reference: **BO-300**

## Description

Wall-mounted, horizontal folding changing table for communal use, in moulded polypropylene with Microban® antimicrobial additive and one-piece steel frame for superior strength.

Ensures family comfort with minimal space requirement.

Contemporary design with bicolour front and streamline shape.

Available in 3 elegant and modern colour finishes.

PRM access.

Specially designed for public establishments: shopping centres, department stores, petrol stations, campsites, hotels, restaurants, museums, parks, airports, train stations, etc.

## Features

Designed for children up to 12 months old and 11 kg.

Grey polypropylene shell with six-point vandal-proof wall mounting.

Available in grey, granite white, or beige finish.

Single-piece steel frame tested to hold up to 91 kg when opened to 90° without deformation.

All-steel hinge providing greater resistance to wear and optimized durability.

Gas springs ensuring smooth opening and closing.

Microban® antimicrobial surface reducing odor-causing bacteria between cleanings. Its high-edge lower tray guarantees maximum safety.

Integrated double liner dispenser with a lock to reduce consumption and prevent vandalism.

Wall-mounted stainless steel bag holder for easy access to diaper bag items.

No visible screws to avoid injury and to facilitate maintenance.

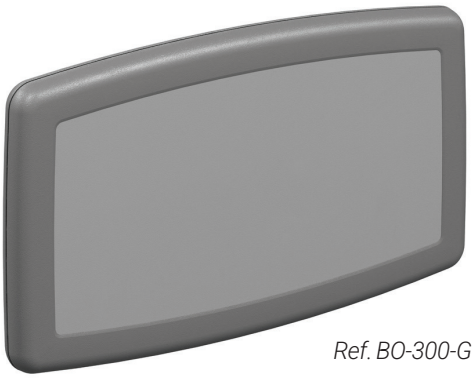

Compliant with EN 12221/1 and 2 norms.

Compliant with PRM standards with proper installation.

Dimensions: L897 x D102 (539 when open) x H528 mm.

Weight: 14.5 kg.

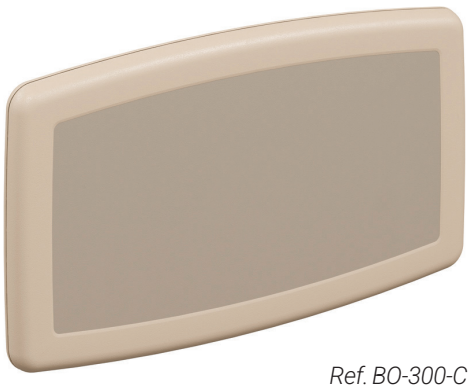

5-year warranty.
