Triple safety precautions:

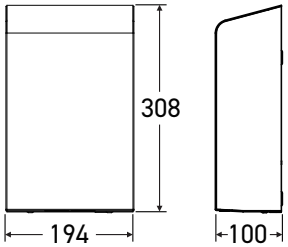

- Auto resetting motor security thermostat at 95°C
- Auto resetting heater element security thermostat at 85°C
- Thermal fuse cuts unit off at 142°C.

Security stop after 60 seconds without interruption.

Dimensions: **W194 x D100 x H308 mm.**

Class 1. IP 24.

3 year warranty.

Environmental labels and certifications:

CB CE UKCA EMC LVD RoHS WEEE

References model choices

CLEAN-AIR high-speed hand dryer with Hepa filter

- **SM-5001** **brushed stainless steel**
- **SM-5002** **steel, black finish**
- **SM-5003** **steel, white finish**

Options

- **LED-UVC:** disinfects the inside of the hand dryer to ensure that only clean, fresh air is blown onto the user's hands.
- **"Plug & Play" docking station:** during construction work, the plate can be installed separately from the hand dryer by electricians to prevent dust or paint from covering it. Once construction is complete, the hand dryer can be easily connected to the plate without the need for an electrician.
- **Anti-bacterial coating:** silver ions can be added to a transparent coating on the hand dryer to provide antibacterial and anti-fingerprint properties.
- **Hood colouring:** in addition to brushed stainless steel, black or white finishes, the hand dryer can be customised with a choice of PVD coatings to match the design of any bathroom.
