ELITE stainless steel raised electronic faucet

References: **RES-75-R-S1 / RES-77-R-S1**

Description

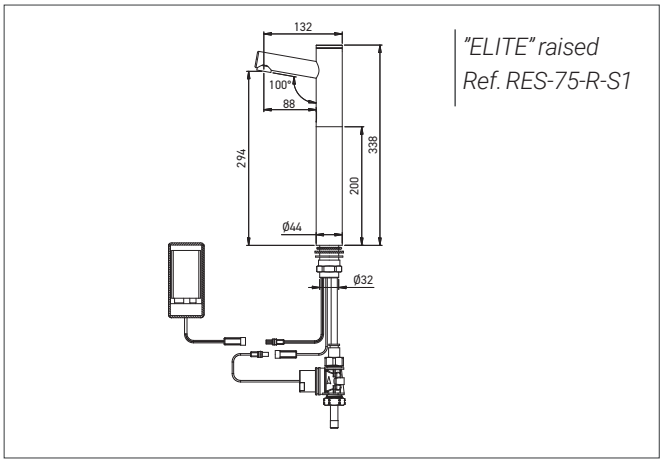

Electronic washbasin faucet with infrared detection for cold or pre-mixed water in AISI 316 stainless steel brushed finish, with riser for countertop basin.

Its elegant design brings a modern and refined style to sanitary spaces.

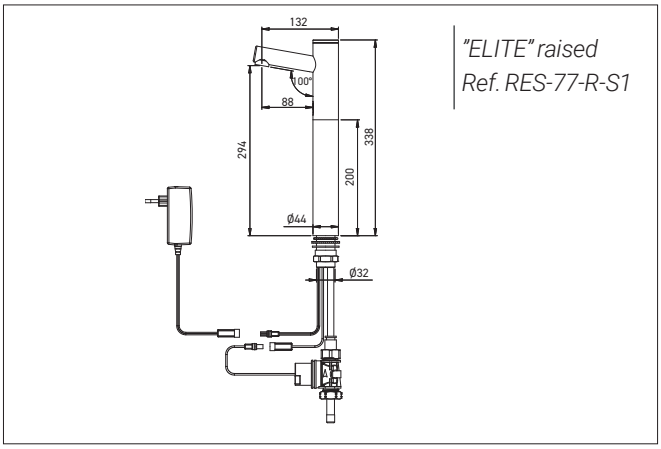

The faucet is designed for easy installation and simple maintenance.

Battery accessibility below the washbasin.

The electronic faucet conserves water, saves energy and optimizes sanitary hygiene.
