

AIRCARE air purifier

Reference: **BIO-AC**

A CLEANER AIR, A BETTER LIFE!

On a daily basis, even if it is not noticeable, we are constantly exposed to various types of pollution present in the air we breathe (odors, viruses, bacteria, ...). At our workplace or at home, in transport and public places, we suffer from the assault of bad odors and bacteria. Yet, air quality is a determining factor of our well-being. By committing to purify the air you breathe ... **AIRCARE also commits to your quality of life!**

SOLUTION TO SANITIZE AND PURIFY YOUR ENVIRONMENT

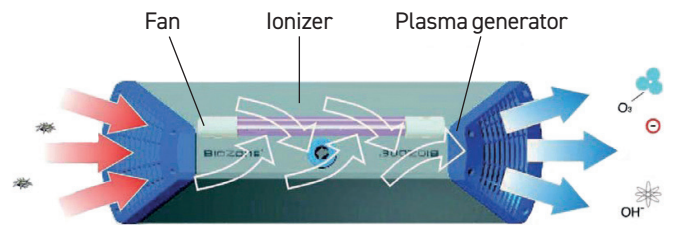

Certified by independent scientific tests, the effectiveness of the AIRCARE system is proven, even in the most demanding environments. The technology destroys both odors and pollutants present in the air and on surfaces.

Device simple to install and maintain. **AIRCARE provides you with an effective solution in every situation!**

WHY USE AIRCARE ?

- ✓ Air and surface decontamination, without filtration or diffusion of masking products.
- ✓ Elimination at the source of unpleasant odors, thus preserving the image of your establishment.
- ✓ Ecological destruction of bacteria, viruses, molds and yeasts.
- ✓ No longer having to use chemical, irritating and toxic products.
- ✓ For the ergonomics, versatility, and ease of use of its devices.

TECHNOLOGY

The air does not need to pass through the device to be purified because the oxygen plasma and negative ions created by the device are dispersed throughout the room.

PERMANENT AND SECURE PURIFICATION SOLUTION

AIRCARE is particularly suitable for the treatment of confined spaces or areas with occasional human presence such as sanitary facilities, changing rooms, corridors, technical rooms (waste or soiled linen) with an area of 7 to 25 m². Its ease of installation and advanced technology guarantee formidable efficiency regardless of the configuration. AIRCARE purifies, disinfects, and deodorizes effortlessly. Requires minimal maintenance: a lamp change once a year and regular cleaning of the grids.

A maintenance key allows the device to be activated or deactivated, which limits accidental handling.

Can be used 24/7 without intervention.

Features

Powered by 230/12V 1.5A.

Power consumption 16 W (approximately €6/year).

Operating range: between -20°C and +40°C.

Relative humidity: between 0 and 90% non-condensing.

Noise level: 51 dB.

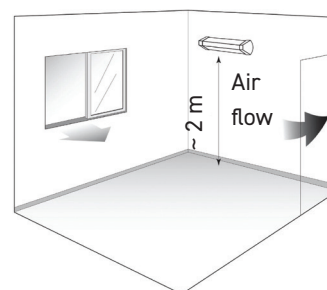

Coverage area: 7 to 25m² (depending on room size, pollution level, air renewal rate).

Mounting: wall or ceiling.

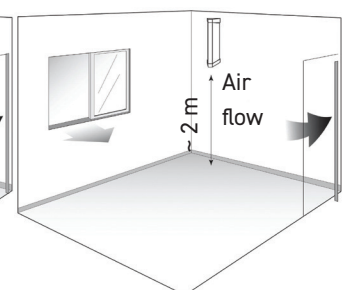

Weight: 0.960 kg

Dimensions: W401 x D131 x H91 mm.

Horizontal installation

Vertical installation

THE AIRCARE must be wall-mounted and placed at height, ideally near an incoming air flow and away from outgoing air flows.

Certifications and scientific validations
