

## Recessed wall-mounted liquid soap dispenser

Reference: BO-8601

## Description

Recessed conical design liquid soap dispenser for panel-mounted installation, with vandal-proof wall mounting.

Pump suitable for all types of liquid soap (anti-corrosion mechanism), including vegetable oil-based soaps, viscous lotions, and synthetic detergents.

Soft push-button. Pump with durable stainless steel spring for long-lasting performance.

Supplied with 1L tank or compatible with containers of any capacity.

Flexible hose supply allows large soap capacity to be concealed in convenient locations, under the sink, behind the wall, or mirror cabinet door.

A free space behind the wall is required for proper installation.

## Features

Chrome-plated brass body, polished finish.

1 L capacity.

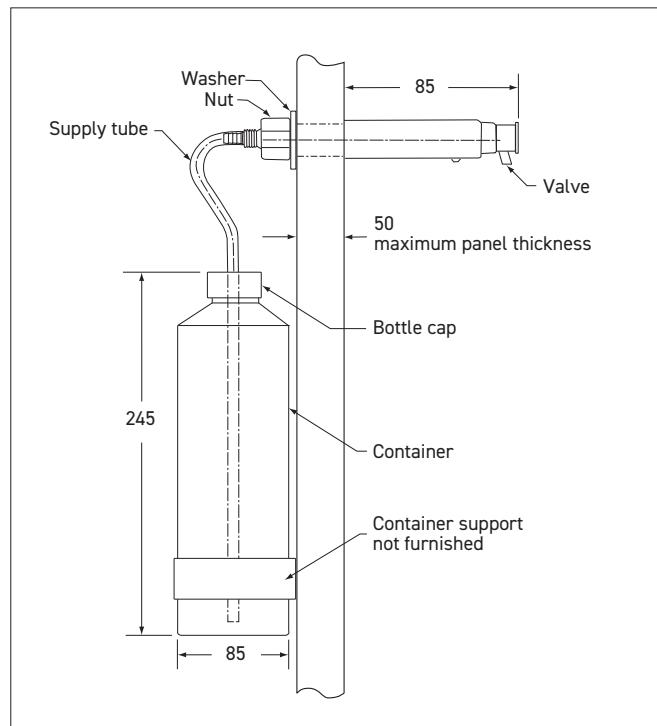

The tank can be placed in any position, as long as the distance from the dispenser does not exceed 1.90 m.

Panel-mounted installation.

Wall hole Ø18 mm / panel thickness 32 to 50 mm

Dimensions: - Tank Ø85 x H245 mm

- Push-button spout L85 mm
