

**Extra-flat trap with Clic Clac or free-flowing washbasin drain**

Reference: **BS-36**

**Description**

Complete set with compact trap H70 mm and 1 1/4" Clic Clac drain (opens and closes with fingertip pressure), convertible free-flow with fixed dome.

This washbasin drain system consists of the shortest trap available according to UNI EN 274, combined with the drain plug fixed directly to the trap by internal screw, without additional accessories.

Saves space under the washbasin, thanks to the presence of all components in just one unit, and easy access under the washbasin for PRM.

**Features**

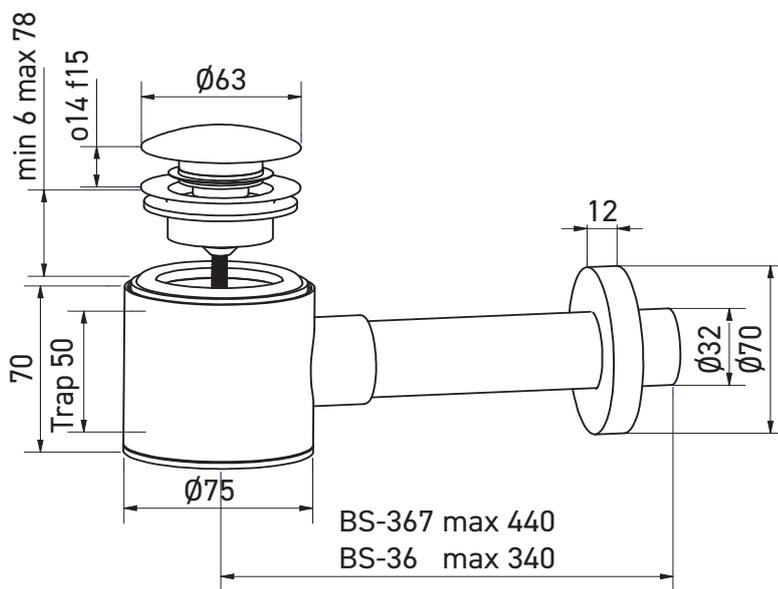

Chrome-plated brass trap and drain for 1 1/4" waste.

Trap body Ø 75 x H70 mm.

Bottom opening for cleaning.

Includes horizontal drain tube Ø 32 W340 or 440 mm, and Ø 70 mm rosette.

For basins up to 78 mm thick.
