

SLIM recessed stainless steel unit paper towel dispenser and 5L bin

Reference: DI-064

Description

Recessed stainless steel combination with paper hand towel dispenser and 5L bin, for a complete, aesthetic and space-saving solution.

By integrating into the partition, it frees up floor space and facilitates circulation in the sanitary facilities.

Flush with the wall, it limits the risk of theft or damage, while simplifying maintenance.

Recessed depth: 100 mm.

Robust design, suitable for public places.

Features

Brushed AISI 304 stainless steel front panel, 2 mm thickness, with fully welded corners and invisible hinges.

Concealed key lock.

Fully welded construction recessed housing.

Possibility to change the door opening direction thanks to its 4 integrated invisible hinges on each side.

Capacities:

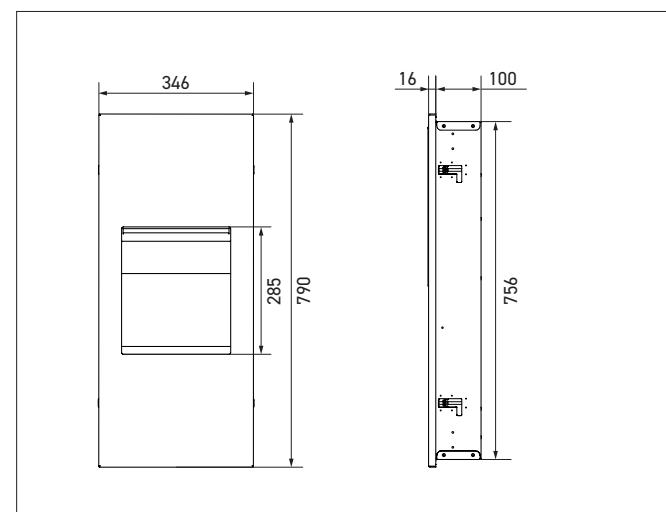

- up to 500 hand towels according to format
- removable 5 L waterproof bin

2 mounting options: with 10 suitable screws or 4 integrated sliding nuts.

Dimensions: W346 x D116 (including 100 mm recess) x H790 mm.

Recess reservations: W314 x D100 x H758 mm.

10-year warranty.
