

## Insect destroyer LURALITE

Besides its aesthetic, LURALITE uses light reflexion for a **discreet and silenced insect control**.

### **OPTIMAL EFFICIENCY!**

The reflected light makes LURALITE more efficient than any other insect destroyer.

Large and attractive glue plates to be placed between 4-6 weeks (with Pheromone to amplify the attraction).

Entirely metal robust construction, white colour (other colours on demand).

Dimensions: 200 x 465 x 170 mm.

Voltage: 18 W.

Tube: 1 x 18 W.

Covered surface: 25 m<sup>2</sup>.

Consumption: 30 W.

1 year warranty - CE compliant.
