

Automatic foam soap dispenser

References: **DS-10 / DS-10-B**

Description

Wall-mounted automatic foam soap dispenser in robust and elegant stainless steel for public places.

Dispenses soft, voluminous, and abundant foam.

No leakage: pump specially designed to prevent any malfunction, leakage risk, and to keep the sink clean.

Long-lasting pump: can be used over 200,000 times.

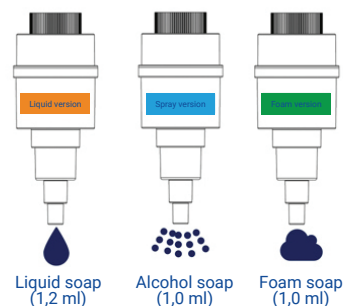

Easy to refill and maintain.

The LED indicator shows the status of the soap dispenser, for example, it flashes when the batteries are low.

All components are independent for easy maintenance; the mechanism is separated from the tank to prevent soap damage.

One dispenser Three functions

Multi-function = interchangeable pumps

Features

AISI 304 stainless steel foam soap dispenser, 1 mm thick, brushed or polished finish.

Self-adjusting infrared sensor (default range: 75 ± 15 mm).
