

Gel hand sanitizer dispenser SANITEX for disinfecting hands

Without needing water, nor rinse, nor drying for a quick antisepsis for clean and dry hands.

To be activated by pushing.

Casted dispenser with silver ions Biomaster technology = constant bacteria elimination which can be left on the dispenser by the users.
Cartridge entirely sealed for maximum hygiene and to avoid risks of cross contamination.

Bactericide according to standards EN 12054 & EN1040.

A new pump with each cartridge, no fertile ground for bacteria.

Sold by box of 4 x 1 L cartridges (1000 uses per cartridge).

Respects the environment: cartridge and pump can be entirely recycled.

Available in manual version or automatic by demand.

Closes by key, as an option.

Dimensions: W16 x D100 x H263 mm.
