

ULTIMA PRM wall-mounted stainless steel WC

Reference: **IN-001-H**

Description

Extended wall-mounted stainless steel toilet accessible for people with reduced mobility features elegant and streamlined lines.

Specifically designed for high-traffic public restrooms requiring a high level of safety and hygiene.

4L efficient and stable flushing ensures low water consumption. Compatible with all standard support frames and direct flush systems available on the market.

Features

AISI 304 stainless steel, 1,5/3 mm thick, brushed finish.

Splash-proof one-piece pressed pan for easy maintenance and enhanced hygiene.

Concealed flush rim for easy cleaning.

Rounded edges and angles for increased security.

Robust, vandal-proof construction designed to withstand loads of up to 405 kg.

Foam: The interior is filled with expanded PU foam for soundproofing and increased durability.

Direct flush or reservoir flush, with wall-mounting on load-bearing wall or on support frame.

Compliant with EN-33 and EN-997 standards for a minimum flush volume of 4 liters.

Ø55 mm water inlet.

Exclusive horizontal trap Ø76/100 mm.

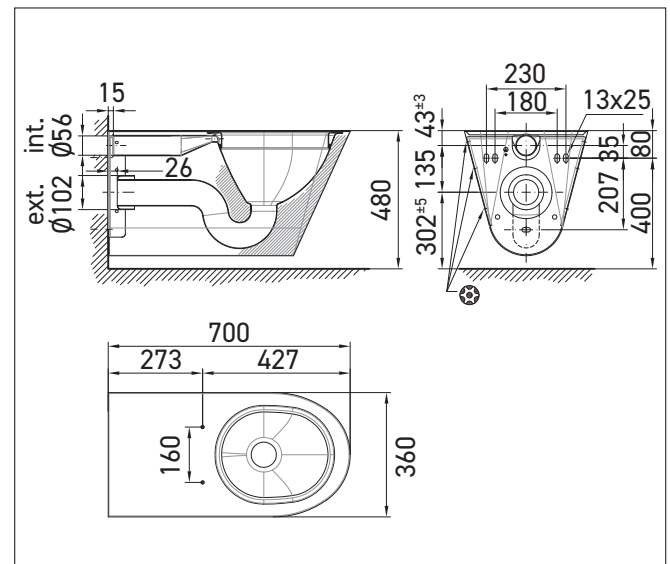

Quick and easy installation from the front with a sturdy and versatile mounting plate (fixing centers 180/230 mm) and 6 lateral security TORX screws.

Seat attachment with 2 security TORX screws, which also serve as hole covers or allow for the later installation of the seat without removing the bowl.

Integrated grounding.

Dim. W360 x D700 x H362 mm.

CE. 10 year warranty.
