

**ULTIMA stainless steel floor-standing WC, PRM raised**

Reference: **IN-005-H**

**Description**

Wall-hung stainless steel toilet pan, raised and extended for People with Reduced Mobility, specially designed for heavily used public sanitary facilities requiring a high level of security and hygiene.

Low water consumption toilet, guaranteeing a stable and efficient flush with 4 L.

Compatible with all tank systems, standard support frames and direct flush systems available on the market.

**Features**

AISI 304 stainless steel, thickness 1.5 / 3 mm, brushed finish.

One-piece stamped splash-proof pan, for easy maintenance and improved hygiene. Concealed flush rim for easy cleaning.

Rounded edges and corners to enhance safety.

Robust and vandal-proof construction to support a load up to 405 Kg.

Foam: the interior is filled with expanded PU foam for soundproofing and to reinforce solidity.

Direct flush or tank flush.

Compliant with EN-33 and EN-997 standards for a minimum 4-litre flush.

Water inlet Ø55 mm.

Ø100 mm stainless steel trap, for horizontal or vertical outlet connection (elbow pipe not included).

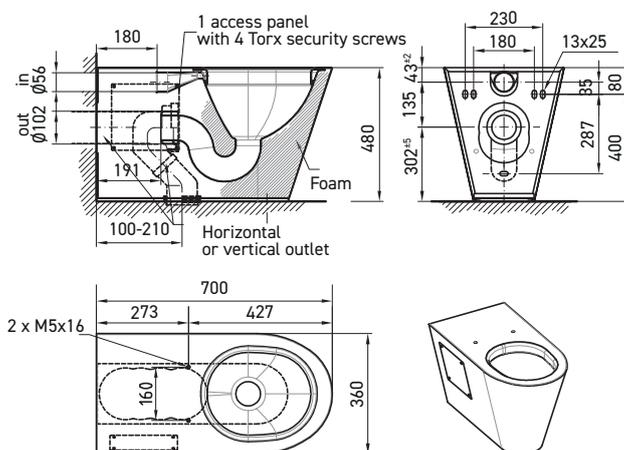

Wall/floor mounting: quick and easy front installation thanks to a side access panel with Torx security screws.

Seat fixing with 2 Torx security screws, serving as hole covers or allowing later seat installation without dismantling the pan.

Earthing included.

Dim. W360 x D700 x H480 mm.

CE. 10-year warranty.
