

Wall-mounted communal stainless steel washbasin

Reference: **INTER-9**

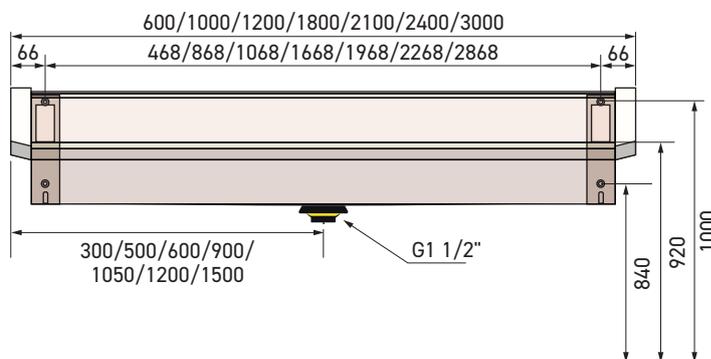

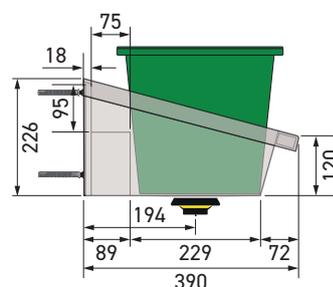

Description

Wall-mounted communal stainless steel washbasin INTER-9 with faucet deck and rear upstand, functional for 1 to 5 users. Available made to measure and can be installed in series. Its flat bottom allows placing a bucket in the washbasin. Suitable for people with reduced mobility from 100 cm width. Designed for public or industrial sanitary facilities requiring strict hygiene and high durability.

Features

Communal trough washbasin made of AISI 441 stainless steel, satin finish. Side thickness 1.5 mm / basin 1 mm. Welded inside, without grooves that collect dirt or rust. Inner angles along the length of the washbasin > 90° to facilitate cleaning and prevent dirt accumulation in corners. 75 mm deck for faucets with 95 mm high backsplash. Basin depth 120 mm, with anti-water stagnation slopes. Central perforated 1 1/2" drain with free flow and no retention. Easy and quick installation with 4 fixing points. Dimensions: D390 x H226 x W600 to 3000 mm. CE. Compliant with EN1429 and EN14296 standards for load resistance of sanitary appliances. 10-year warranty.
