

Recessed mural soap dispenser

Recessed pump in chromed brass vandal resistant for liquid soap.

A supply soap pipe supply allows to conceal a grand capacity of soap, in all useful spaces, under the sink, behind the wall...

1L tank supplied (can be replaced by the canister of any required capacity).

Several dispensers can be connected to the same canister.

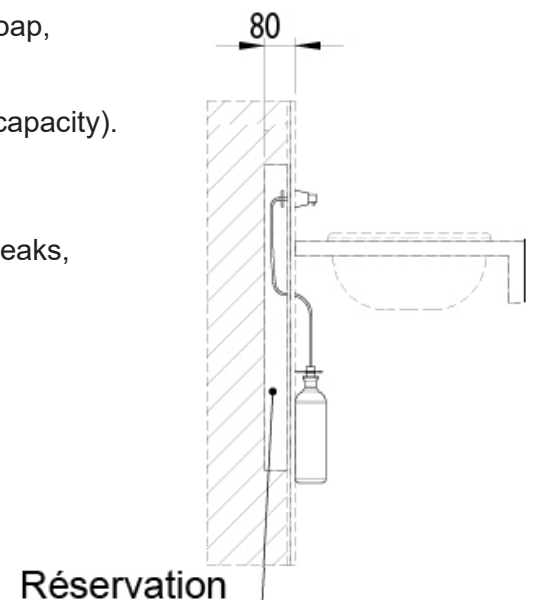

Container can be above or underneath the dispenser without any leaks, at a maximum distance of 1,90 m.

The wall soap dispenser fixation is possible from the front (without any access behind the wall) or access behind the wall.

For a correct installation, plan a free access behind the wall.

Dimensions: W68 x Ø 40 mm.

Hole in the wall Ø 26-27 mm.
