

Timed foot washer with oriental headReference: **RED-50****Description**

Timed foot wash designed for indoor or outdoor use, equipped with an adjustable head, compatible with cold or pre-mixed water.

The touch-sensitive piezo button allows contactless activation: by simply touching the indicated area on the top, water flows automatically for 8 seconds.

The user can interrupt the flow at any time by touching the control area again.

This system optimizes hygiene, limits contact and contributes to significantly water savings.

Ideal for pools, beaches, wellness areas, and everyday foot cleaning.
