

AKWA electronic faucet

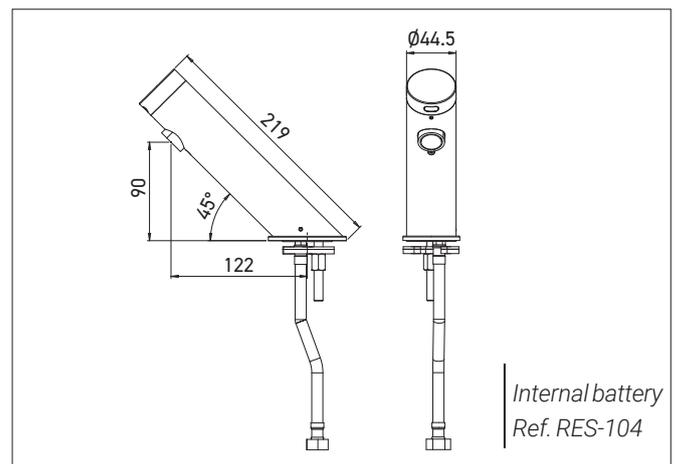

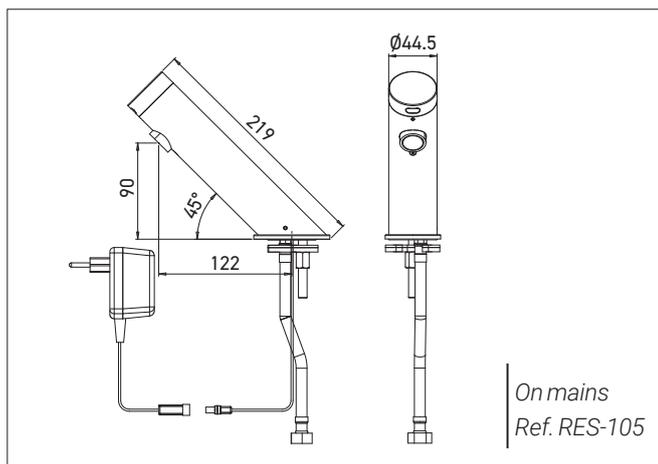

References: **RES-103 / RES-104 / RES-105**

Description

Electronic washbasin faucet, for cold or pre-mixed water, with nano infrared sensor.
 Elementary shape for a timeless design.
 Robust design for heavy-duty use in communal areas.
 Easy installation and simplified maintenance.
 Electronic faucets reduce water consumption, save energy and optimize hygiene in sanitary facilities.

Features

Self-adjusting infrared detection.
 Settings adjustable by remote control (sensor range, flow duration, periodic flush, temporary stop).
 Powered by an integrated or external 9V battery under the sink, or a 230/9V transformer.
 Low battery indicator light for replacement.
 Security stop after 90 seconds of uninterrupted use.
 Periodic hygiene rinse.
 Brass body Ø44.5 mm, chrome plated.
 Integrated solenoid valve.
 Flow rate limited to 6 LPM (1.3, 1.9 or 3 LPM on demand).
 Lead-free water circuit.
 Cold or pre-mixed water supply.
 Water pressure: 0.3 – 8.0 bars / Maximum temperature 70°C.
 CE. ACS. 3-year warranty.
