

## Automatic soap dispenser in stainless steel RONDEO

### Description

Wall mounted electronic liquid soap dispenser in stainless steel quality AISI 316 foam soap brushed finish with infrared sensor.

Recommended for intensive use and installations where easy maintenance and robustness are privileged.

- Powered by 230/12V transformer.
- Drastic reduction in soap consumption.
- Touch free, avoiding any cross-contamination risks.
- Peristaltic pump; soap goes through a pipe which has no direct contact with the pump, avoiding any risk of cross-contamination.
- Dispenses the exact amount of soap needed.
- To use with non-proprietary soap, to reduce costs.
- Soap and air dosage to increase foaming effect adjustable by remote control.
- Easy to install and refill.
- 2 year warranty.
