

ONE deck mounted electronic faucet

References: **RES-51** / **RES-52**

Description

Electronic faucet with infrared detection, combining geometric minimalism and functionality, for cold or pre-mixed water.

Pure design: concealed sensor, integrated in the tip of the spout.

Comfort: very reactive sensor, water flows as soon as the user's hands are in range!

Its elegant design adds a contemporary and polished touch to washrooms.

This faucet is designed for an easy installation and upkeep.

Features

The unit has a self-adjusting infrared sensor which can also be adjusted by remote control (sensor range, flow time, hygiene rinse, temporary off, safety time, reset...).

Powered by 9V battery or 230/9V transformer.
