

EXTREME DS matte black electronic mixer tap

References: [RES-7-N](#) / [RES-8-N](#)

Description

Designer electronic faucet with infrared sensor and temperature mixer for washbasins.

Aesthetic: concealed sensor, integrated in the tip of the spout.

Comfort: very reactive sensor, water flows as soon as the user's hands are in range!

The vandal-proof brass construction allows for safe installation in high-risk areas.

This faucet is designed for an easy installation and upkeep.

Features

Integrated self-adjusting infrared detection at the end of the spout.

Adjustable settings by remote control (sensor range, flow time, hygiene rinse, temporary off, safety time, reset...).

Powered by 9V battery or 230/9V transformer.

Sensor includes a low battery LED indicator.

Security stop after 90 seconds without interruption.

Periodic hygiene rinse.

Chrome brass body.

External solenoid valve M1/2".

Limited flow rate of 4LPM (1.9LPM available upon request).

Mixes hot and cold water, with the solenoid valve integrated into the faucet body.

SPEX F3/8" hoses (resistant to chlorinated disinfection and temperature increases) with integrated check valves.

Filters supplied.

Operating pressure: 0.3 – 8.0 bars. / Max. temperature 70°C.

CE. ACS. 3 year warranty.
