

Tall ELITE automatic soap dispenser

References: **RES-72-R** / **RES-72P-R**

Description

Elevated design soap dispenser for countertop basins, with concealed infrared sensor at the tip of the spout: dispenses a dose of soap simply by bringing the hand close, with no germ transmission.

Drastically reduces soap consumption thanks to precise and consistent dosing, with automatic shut-off and no dripping.

Peristaltic pump: soap flows through a tube without coming into contact with the pump, preventing contamination and backflow.

Easy to install and refill.

A cost-effective solution ensuring impeccable quality and hygiene in washrooms.

Features

Activated by infrared sensor.

Powered by 230/12V or 6 LR20 batteries (not included).

Chrome-plated brass body.

1L refillable reservoir with wall-mounted support (2L or 6L options).

Operates with a peristaltic pump, compatible with all types of liquid soap, detergent, lotion, or antibacterial gel.

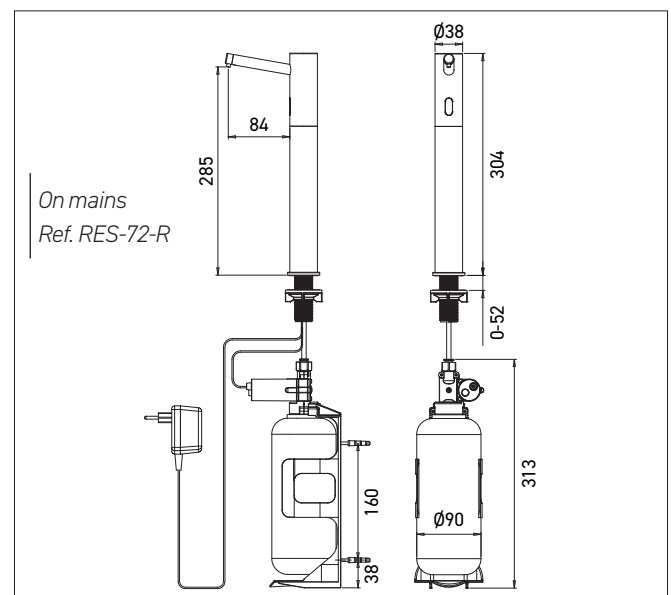

Viscosity: 100–3800 cPs. pH: 6.5–8.5.

Deck-mounted installation, standard with an under-sink tank.

Wall-mounted support for pump and tank.

Optional RES-38 remote control for soap dose adjustment, priming after refill, temporary shut-off, and reset).

CE. 2 year warranty.
