

## ELITE automatic soap dispenser

References: **RES-72** / **RES-72P**

### Description

Automatic liquid soap dispenser for washbasin.

Touch-free, protects against cross contamination.

Minimalist, modern and elegant design.

The robust brass construction allows for installation in heavy-use spaces.

Drastic reduction in soap consumption: precise, even soap dosage, automatic stop without dripping.

Easy installation and maintenance.

Perfect combination with the ELITE electronic faucet for hygiene, user enjoyment, and brand image of your sanitary spaces.

### Technical characteristics

Activation with infrared sensor.

Powered by 230/12V transformer or 6 x LR20 batteries (not included).

Chrome-plated brass spout.

1L refillable tank and wall support (2L or 6L tank option).

Operates by peristaltic pump, allowing the use of any type of liquid soap, detergent, lotion or antibacterial gel.

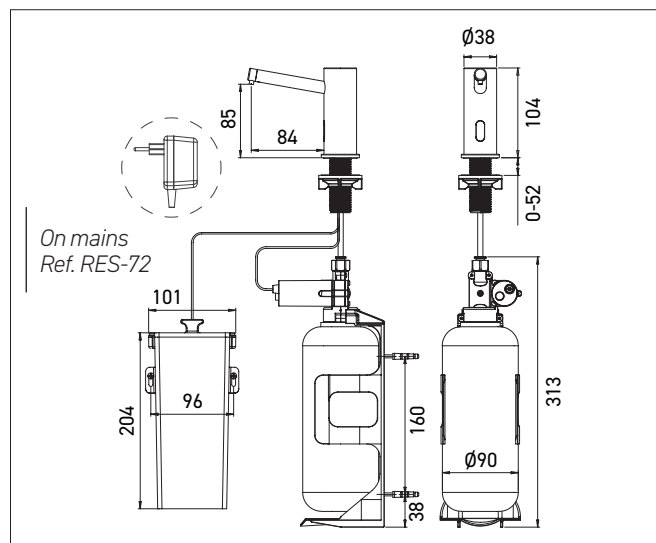

Viscosity 100-3800 cPs. 6.5 - 8.5 pH.

Deck-mounted installation, standard with an under-sink tank.

Wall-mounted pump support and tank.

Optional RES-38 remote control for setting adjustments (soap dosage, soap priming after refill, temporary stop, reset).

CE. 2 year warranty.
