

ELITE automatic soap dispenser with soap level indicator

Reference: **RES-72V****Description**

Automatic liquid soap dispenser for washbasin with soap level LED indicator to save time on maintenance, with no need to open a cabinet for inspection.

Touch-free, protects against cross contamination.

Minimalist, modern and elegant design.

The robust brass construction allows for installation in heavy-use spaces.

Drastic reduction in soap consumption: precise, even soap dosage, automatic stop without dripping.

Easy installation and maintenance.

Perfect combination with the ELITE electronic faucet for hygiene, user enjoyment, and brand image of your sanitary spaces

Features

Activated by infrared sensor.

Powered by 230/12V transformer or 6 LR20 batteries (not included).

Chrome-plated body.

Refillable 6L tank and wall support.

LED soap level indicator: green when the tank is full, orange when the level is getting low, and red when it needs to be refilled.

Operates by peristaltic pump, allowing the use of any type of liquid soap, detergent, lotion or antibacterial gel.

Viscosity 100-3800 cPs. PH 6.5 - 8.5.

Standard deck-mounted installation with under-sink tank.

Wall-mounted support for pump and tank.

Optional RES-38 remote control for setting adjustments (soap dosage, soap priming after refill, temporary stop, reset).

CE. 2 year warranty.

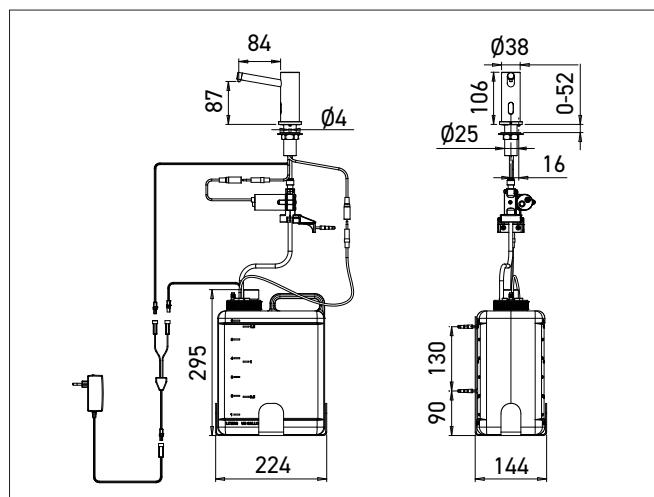

ELITE soap & water
