

## TRIMEO automatic foam soap dispenser

Reference: RES-781M

## Description

Touch-free electronic foam soap dispenser with top-filling system and LED level indicator, designed to reduce service costs in high-traffic areas.

When the soap tank is full, a green LED lights up on the level indicator at the base of the dispenser.

When the indicator turns red, it's time to refill the tank, no need to open a door to check the soap level.

Robust brass construction allows installation in high-traffic environments.

Drastically reduces soap consumption with precise and consistent dosing, and automatic shut-off with no dripping.

Soap and air dosage can be adjusted via remote control to enhance the foaming effect.

Peristaltic pump: soap flows through a tube without coming into contact with the pump, preventing contamination and backflow.

Combined with a touch-free electronic faucet, it creates a hygienic, fully automated, and aesthetic environment.

## Features

Activated by infrared sensor.

Powered by 230/12V transformer.

Chrome-plated brass body.

2L soap tank.

Peristaltic pump prevents backflow and clogging.

Delivers an exact dose of soap. Affordable solution.

Automatic shut-off with no dripping.

Dose: 1.2-1.6 cc

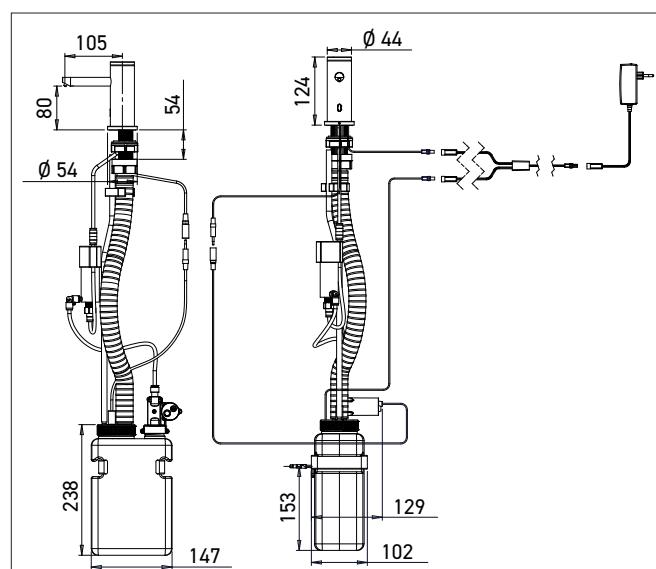

Viscosity 100-3800 cPs. PH 6.5 - 8.5.

Deck-mounted installation, standard with an under-sink tank.

Wall-mounted pump support and tank.

Optional RES-39 remote control to adjust the soap dose, priming after filling, temporary stop and reset.

CE. 2 year warranty.

Top filling
