

Multi-feed kit for automatic soap dispensers

References: **RES-790 / RES-790L / RES-791**

The multi-feed kit is the ideal solution for high-traffic areas.
Supplies up to 6 soap dispensers simultaneously with the included 6L tank.
Top fill mechanism with chrome plated vandal-resistant cover = easy maintenance without opening the cabinet and/or removing the tank from under the sink.
Optional LED soap level indicator (green/orange/red LED depending on soap level).

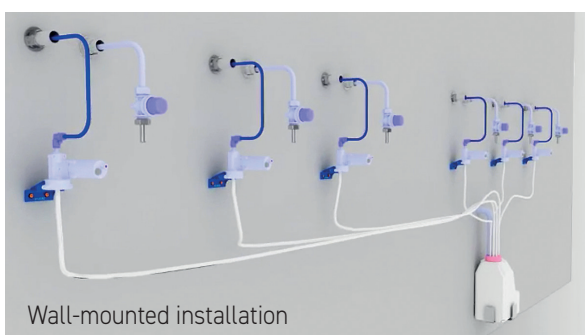

- Easy installation
- High-quality PVC hoses
- 6L tank (dim. W140 x D216 x H285 mm)
- Up to 6 dispensers with transformer, max 3 m (with batteries max 1,50 m)

Simple and quick to install, the kit helps maintain clean and neat restrooms in an automated environment, while preventing the spread of germs.

A perfect combination with the SUPRATECH range of electronic taps and liquid or foam soap dispensers, creating an aesthetic, user-friendly and high-end image for your sanitary spaces.

To enable functions, use optional RES-38 remote control (soap dosage, air quantity /foaming effect, soap priming after refill, temporary stop, reset).
