

4 in 1 Soap-Water-Air-Mirror cabinet

Reference : RES-850

Description

All-in-one, ready-to-install mirror unit including automatic liquid or foam soap dispenser, electronic water faucet with thermostatic mixing valve and high-speed hand dryer.

The mirror cabinet with its integrated equipment is the ideal solution:

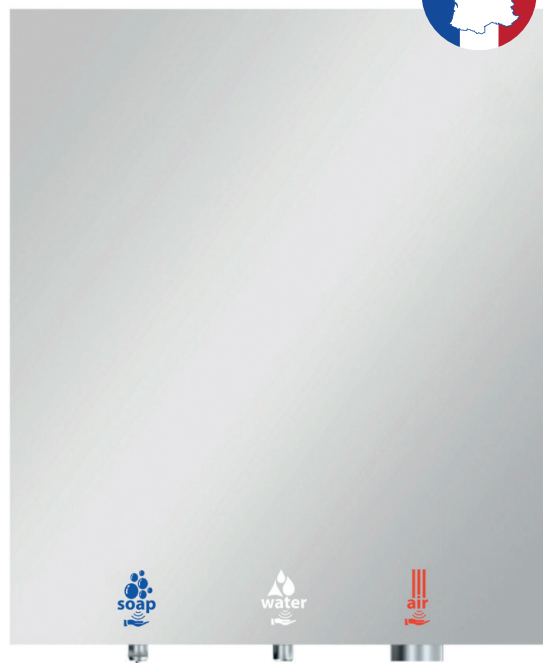

For hygiene and comfort with the touch-free automatic activation.

- For water and soap savings.
- For architectural integration by minimising the visual aspect.
- For limited clutter in interior spaces.
- For easier installation and minimal maintenance.
- For easier soap refill and maintenance, all within reach.
- For a clean room (no dirty faucet, no soap marks, no wet floor...).
- Sleek and refined, the hidden appliances bring a minimalist and functional design to your washrooms.

Secure the unit to the wall onto the suspension rail, connect a sole power supply line, the water lines to the mixing valve, and voilà!

The unit is fully operational!

All the components (solenoid valve, pump, sensors, transformer, shut-off valve, mixing valve...) within reach for ease of maintenance.

Features

- Cabinet made out of 19 mm thick hydro moisture-resistant melamine with white 1 mm thick PVC-coated edges.
- Cabinet base and door in rot-proof 19 mm white komacel.
- 6 mm thick mirror with backing film. 2 soft close swing up flap arms and 2 concealed hinges.

Components installed on durable 1.5 mm thick stainless steel plate. Key lock.

- Illuminated pictograms (colour selection: blue, white, red, or green), vertical spouts and stainless steel nozzle to indicate hand placement in public spaces.
- Soap dispenser operates with peristaltic pump for precise soap dosage. Closes automatically without dripping. 7L soap tank easily accessible for filling (liquid or foam soap).
- F3/8" thermostatic mixing valve for tempered water.
- Vertical faucet with self-adjusting infrared detection, 6 LPM flow rate (1,9 LPM on demand). Security stop after 90 seconds without interruption. Water pressure: 0.5-8 bars. Periodic hygiene rinse.
- High speed hand dryer 920W nominal output. Hot/ambient air switch. Adjustable airflow and volume level.
- CE. 3 year warranty. Soap dispenser warranted 2 years.
- Measurements: W600 x D250 x H700 mm.

The concept is modular in terms of dimensions, finishes and integrated elements, please consult us.

References model selection

- RES-850 Liquid soap
- RES-850M Foam soap

EASY SOAP SERVICING:

- no lid to unscrew, simple flap
- no hose, prevents soap from leaking
- large bottleneck, no funnel needed
- 7L large capacity, reduces interventions

Options

- Limited 1,9LPM flow rate
- Water and soap RES-30 remote control
- Paper towel dispenser
- All white LEDs or choice of other colours
- Soap level indicator light
- Brushless hand dryer with Hepa filter
- Built-in LED strips to top and/or bottom cabinet
- Top mirror casing H300 mm for total mirror unit height 1000mm (Ref. MH)
- Choice of mirror cabinet components
- Cabinet colour finish
