

AIRJET hand dryer with HEPA filter

References: **SM-ARB** / **SM-ARG** / **SM-ARN** / **SM-ARR**

Description

AIR JET electric vertical pulsed air hand dryer, in ABS antibacterial finishes of white, grey, black, or graphite.
Compact size and low noise level.
Automatically activates upon hand insertion, drying in 10 seconds.
High performing and energy saving.
The heating element stops automatically when the ambient temperature exceeds 25°C (on request, pulsed air without heating element).
Digital information display and LED lighting.
Large-sized HEPA filter, purifies pulsed air at 99.75%.

Features

High quality, durable ABS material with an antibacterial silver ion additive in the drying zone to reduce the growth of bacteria, fungi and mould.

Operating voltage: 220-240 V 50/60 Hz, 5.2 A – 7.5 A.

Air flow speed at 540 KM/H. Output 220 m³/h.

Sound level= 65,6 dB at 2m.

Nominal power output 1550W (1000W motor, 550W heater).

Air temperature: 40 °C.

H14 HEPA filter 115 x 220 x 27 mm.

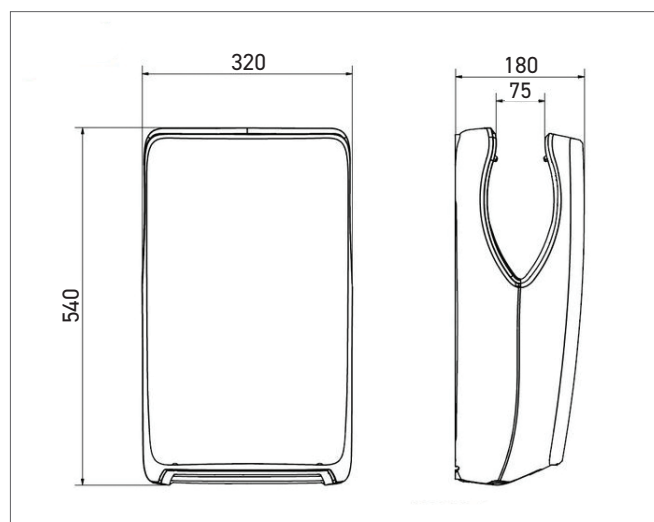

0.5L reservoir capacity.

Class 2. IP21.

Dimensions: W320 x D180 x H540 mm.

Weight 6,65 kg.

CE, SGS. 3 year warranty.
